EDUCATION

Queen's University

Graduation – May 2026

Bachelor of Computing, Computer Science with specialization in Cognitive Science

Queen's Excellence Scholarship

Central Toronto Academy Advanced Placement program (GPA: 4.0/4.0)

Relevant coursework

Neural & Genetic Cognitive Models Artificial Intelligence Cognitive Neuroscience Brain and Behaviour
Cognition and Computation Discrete Math II Philosophy of Mind

EXPERIENCE

Data Science Researcher

August 2025 – Present

Krembil Centre for Neuroinformatics, CAMH

- Analyzed ~180,000 clinical notes using Python and Jupyter to identify patterns associated with inpatient aggression and violence risk
- Applied NLP techniques including topic modeling, sentiment analysis, and embedding-based methods to examine the relationship between stigmatizing language and clinical outcomes
- Presented findings at academic conferences and co-authored a manuscript currently in preparation, collaborating with clinicians and lived experience groups to validate and interpret results

Python Jupyter Pandas NumPy Scikit-learn NLP

Product Engineer

August 2025 – Present

Azrieli Adult Neurodevelopmental Centre, CAMH

- Developed a neuroaffirming pre-assessment platform for autistic adults, supporting structured intake and clinician-ready report generation
- Built full-stack architecture using .NET, Node.js, Python, and JavaScript to handle data capture, processing, and output pipelines
- Designed and implemented structured data pipelines converting raw user responses into standardized, report-ready clinical formats
- Integrated fine-tuned AI models (local and API) to generate summaries and support controlled conversational interaction within a rule-based intake system
- Collaborated with Apple Accessibility (Canada) and led workshops with individuals with lived experience to improve accessibility, interaction design, and overall usability
